

Subject: Restrictions of Hazardous Substances 2015/863 (RoHS III Compliance)

Date: 8/10/2022

To: Whom I May Concern:

Spira Manufacturing Corporation is committed to protecting the environment and being an environmentally responsible company. Spira Manufacturing Corporation hereby confirms that EMI Gaskets and seals within Spira RoHS & REACH Compliant Products Table are optionally in compliance with the RoHS directive EU 2015/863. Please access Spira RoHS & REACH Compliant Products Table for all options on the last page.

The materials and substances listed in the RoHS directive, which include cadmium (Cd), lead (PB), Mercury (Hg), hexavalent chromium (Cr6+), polybrominated biphenyls (PBB), polybrominated diphenyl ethers (PBDE), Bis phthalate (DEHP), Butyl benzyl phthalate (BBP), Dibutyl phthalate (DBP), and Diisobutyl phthalate (DIBP) are not intentionally added or used in the manufacturing of our RoHS compliant gaskets and seals. Spira Manufacturing Corporation does not use any of these substances listed in the RoHS directive in the manufacturing of our RoHS compliant gaskets.

Please note that possible traces of the aforementioned prohibited materials may include naturally occurring mined copper and may be included in our beryllium copper products. However, if these traces exist, they are well below the allowable percentages listed in the RoHS directive.

As a result of this directive, Spira Manufacturing Corporation has developed a whole new product line of RoHS compliant EMI gaskets and seals.

Please call or e-mail sales@spira-emi.com for details.

Sincerely,

William Wantz General Manager Spira Manufacturing Corporation (818) 764-8222 (818) 764-9880 (FAX)

Subject: Restrictions of Hazardous Substances 1907/2006 E (REACH Compliance)

Date: 8/10/2022

To: Whom I May Concern:

Spira Manufacturing Corporation is committed to protecting the environment and being an environmentally responsible company. Spira Manufacturing Corporation hereby confirms that EMI Gaskets and seals within REACH Compliant Products Table are fully in compliance with the REACH Regulation 1907/2006/EC as of August 10, 2022.

The materials and substances listed in the REACH Regulation, which include cadmium (Cd) and lead (PB) are not intentionally added or used in the manufacturing of our REACH compliant gaskets and seals. Spira Manufacturing Corporation does not use any of these substances listed in the regulation in the manufacturing of our REACH compliant gaskets.

Please note, Lead as contained in Spira products are exempt from REACH restriction based on the "Conditions of Restrictions" in Annex XVII. Per the restriction above, the two categories for restriction are:

- 1. Shall not be placed on the market or used in any individual part of jewellery articles if the concentration of lead (expressed as metal) in such a part is equal to or greater than 0,05 % by weight.
- 2. Shall not be placed on the market or used in articles supplied to the general public, if the concentration of lead (expressed as metal) in those articles or accessible parts thereof is equal to or greater than 0,05 % by weight, and those articles or accessible parts thereof may, during normal or reasonably foreseeable conditions of use, be placed in the mouth by children.

AS Supplied to our customers, Spira gaskets are neither "jewelry articles" nor "provided to the general public." Please see the European Chemicals Agency for more details: <a href="ECHS Annex XVII">ECHS Annex XVII</a>

Please note that possible traces of the prohibited materials may include naturally occurring mined copper and may be included in our beryllium copper products. However, if these traces exist, they are well below the allowable percentages listed in the REACH regulation.

As a result of this regulation, Spira Manufacturing Corporation has listed all available options of REACH compliant EMI Gaskets and seals in Spira RoHS & REACH Compliant Products Table. Please access Spira RoHS & REACH Compliant Products Table for all options on the last page.
